No liability is assumed for incidental or consequential damages in connection with or arising out of the use of the information contained in this document.

Revision History

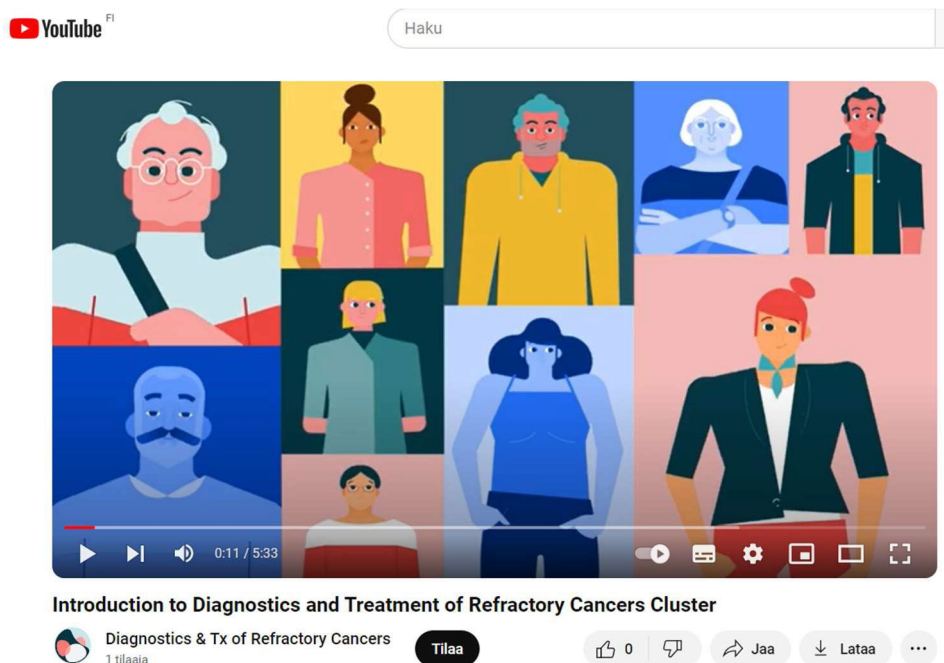

| Date | Ver. | Author(s) | Summary of main changes |
|------------|------|--|-------------------------|
| 03.10.2024 | 1.1 | Mukhrizah Othman, Helena Hansson-Nylund, Antonios Valachis, Kalliopi Mastoraki | Initial version |
| 18.10.2024 | 2.0 | Antonios Valachis | Final version approved |

Common cluster video and webpage

Common cluster video

Diagnostics and Treatment Cluster common video has been published on YouTube: <https://www.youtube.com/watch?v=Y4O-0zbSoSg>.

Common cluster webpage

During the cluster meetings we realized that it would be necessary to introduce different projects along and these are collected on EU Mission on Cancer webpage <https://eumissiononcancer.eu/>. The webpage was created to replace the brochure.

The EU has funded 12 research projects on the treatment of different types of cancer. They are united in their effort to develop pragmatic clinical trials to optimize the diagnosis and treatment of patients with refractory cancers.

Through these clinical trials, we will have more data driving us to pragmatic solutions that can be quickly implemented, are low-cost, and will hopefully cure these patients with poor prognoses.

While the common video introduces the Diagnostics and Treatment cluster aims, and introduces a few projects, the EU Mission on Cancer webpage serves as a platform for all project introductions.

Common cluster video and webpage construction

Members of the SALVOVAR team has created the video and the webpage, and are responsible for their maintenance. All cluster members are responsible for the content and reporting.

Webpage updates

Cluster has created a communication team that aims to bring the news and ideas from project but also finding news from the cluster work that will be updated to the webpage.
